

Smart-Acon Trading Co., Ltd. is a leading in supplying the decorative and construction materials from well known companies around the globe. The company is well established in early 2007.

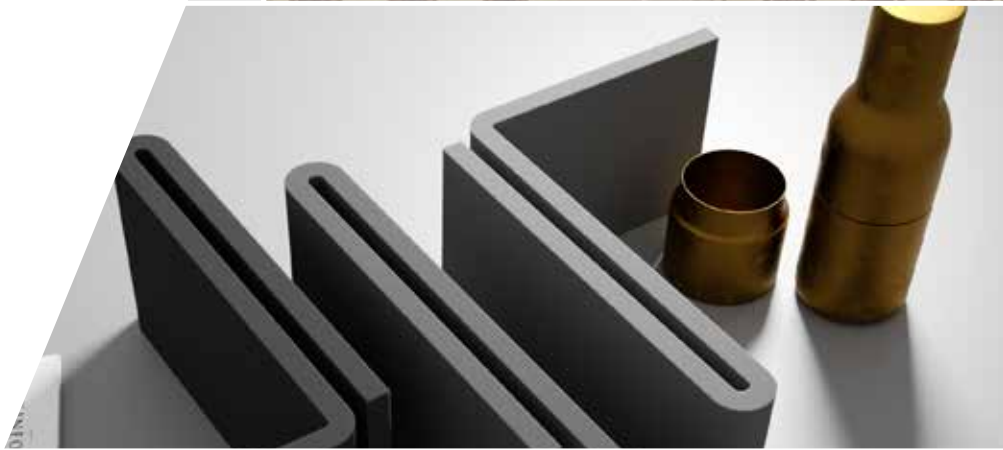

More often than not, the creativity of your ideas far exceeds the possibilities of the materials you work with. HIMACS is ready to change that. Because, with this flexible solid surface material, you can make your vision a beautiful reality.

Smooth, Non-Porous,
Thermoformable Solid Surface
For Seamless Design

CERTIFICATION

WHY HI-MACS?

Easy Care & Maintenance

Built to last a lifetime, HIMACS will remain beautiful and durable for many years with proper care.

Sustainability

HIMACS supports a greener earth by using sustainable materials, and are Greenguard Certified.

Unlimited Spectrum of Colors

HIMACS offers a virtually limitless range of colors in all conceivable shades.

Durability

HIMACS stands up to everyday wear and tear with its strong durability similar to natural stone.

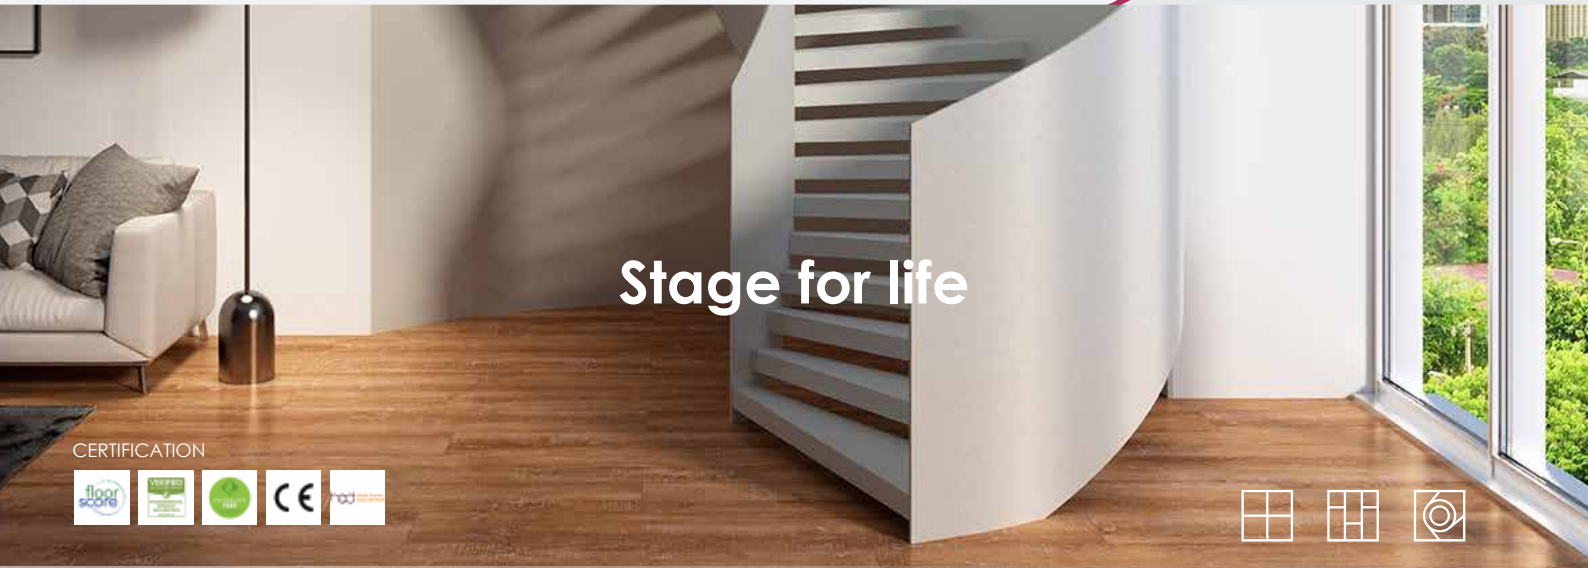

Hygienic & Non-Porous

Non-porous, seamless HIMACS surface creates an extremely hygienic, easy-to-clean environment.

Inconspicuous Seams

HIMACS seamlessness allows smooth integration of large areas without joints or edges.

CERTIFICATION

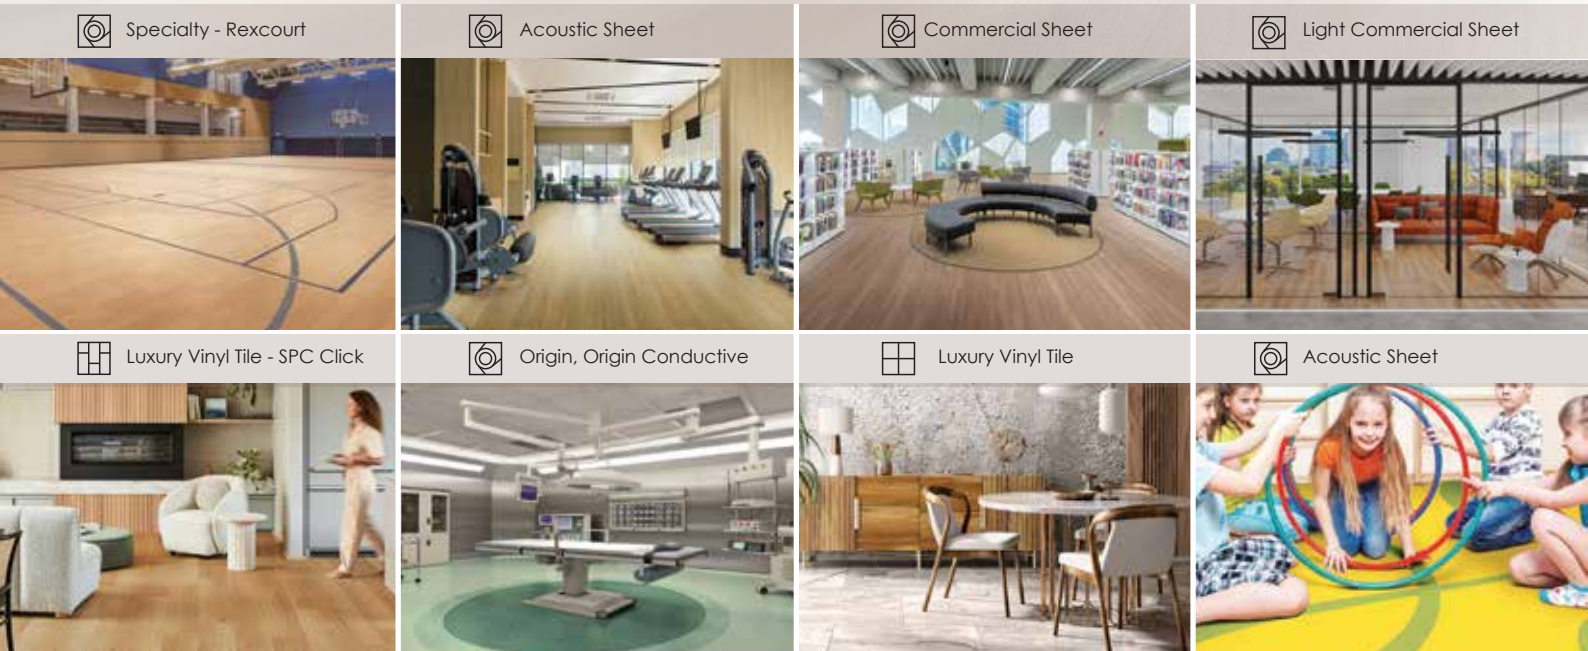

H·Floor category:

- Homogeneous Sheet (Single Layer): Origin, Origin Conductive ...

Liebherr has been a successful leader in the manufacturing of construction materials for 65 years, spanning a diverse range of products from home appliances to heavy construction equipment. Today, Liebherr employs 50,000 individuals and operates over 130 subsidiaries in more than 50 countries worldwide

Built-in

Integrated

Free Standing

Under Counter

Experience a world of freshness.

Do you know that Liebherr is a company that manufactures and supplies a research program for the European Union called "Clean Sky" and that the cooling system canceled out the heat by a heat exchange equipment called the liquid skin heat exchanger that has been manufactured by Liebherr-Aerospace by using liquid coolants? This equipment has been used by the Airbus A320. This is the solution to resist gain thermal charge and density in airplanes.

Wine Cabinets

Properly stored, wine continues to develop its natural flavour in the bottle and, on reaching peak maturity, the wine will be deeper and more complex.

- Built-in / Under Counter
- Free Standing

Liebherr wine cabinet not only give you the luxury looks on the inside and outside but also gave you the perfect quality to preserve you expensive wine by deep research for the perfect temperature for preserving different type of drinks.

To preserve wine effectively, the ideal temperature range is from **5°C to 20°C**. Additionally, **Liebherr** wine cabinets have a special feature that allows you to adjust the temperature to suit specific types of wine.

- COURTESY TAP

Green-Tech Argo Rubinetterie

Poly-Tech: Zero metals

AA-Water and Energy Saving

More rational use of water and energy, therefore saving limited and precious resources!

Simplifix System

The patented SEMPLIFIX system, compatible with any sink, allows you to install a tap in just 5 minutes.

Innovative Materials

Use of materials (brass, steel, aluminum and Poli-Tech) with no or low content of heavy metals.

Courtesy tap

In the event of a breakdown, ARGO RUBINETTERIE supplies a courtesy tap that immediately solves the problem.

Sanifix System

Sanitization system, which through the use of broad-spectrum disinfectants, allows the effective elimination of the main pathogens.

Faucet ID Card

Immediate recognisability and transparency of product characteristics
